## 6. Feature

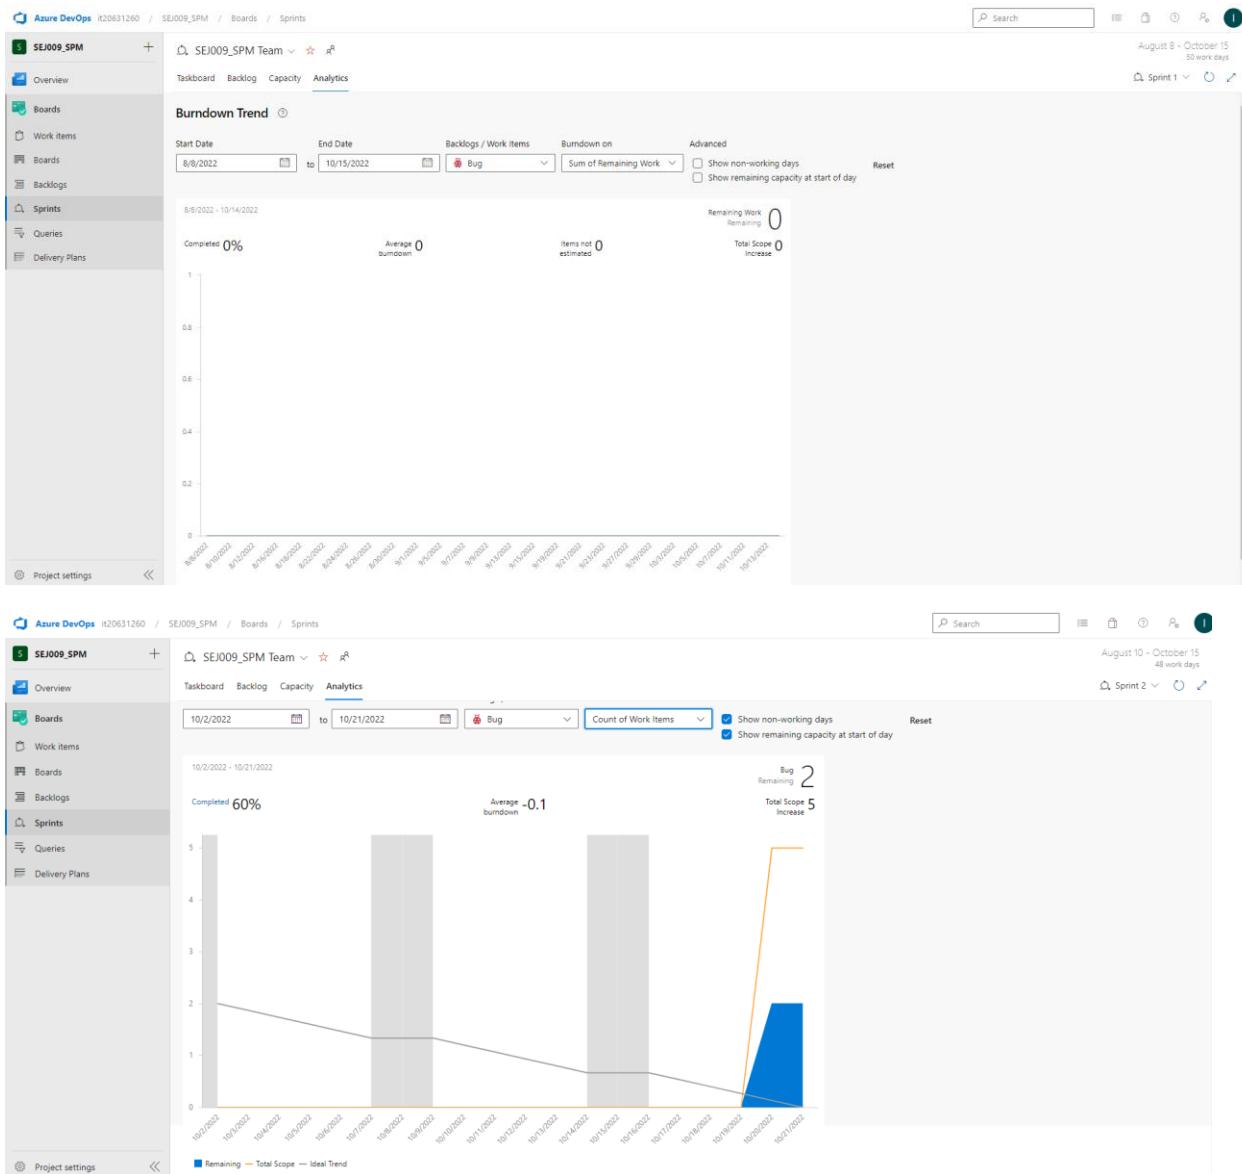

The screenshot shows the Azure DevOps interface for the project 'SEJ009\_SPM'. The left sidebar has 'Work items' selected. The main area displays a table of work items with columns: ID, Title, Assigned To, State, and Area Path. The table lists 14 work items, including tasks like 'Customer Profile Management' and 'Generate Reports'. The 'State' column uses color-coded icons: green for 'Done', blue for 'In Progress', and grey for 'Not Started'. The 'Area Path' column shows all items belong to 'SEJ009\_SPM'.

The screenshot shows a GitHub repository page for a README.md file. At the top, there's a commit history header with a yellow profile icon for 'SDSamarasinghe', the date '3 minutes ago', and a 'History' button. Below this, it says '1 contributor'. The main content area starts with the title 'Project Name - Online Mobie and Accessories Shop.' followed by 'Batch - SE Batch 01'. Then, it lists four group members: 'Group Leader - IT20631260 - Jayathilaka S.A.D.R.P (rAVINDUpRABASHWARA)', 'Member 2 - IT20605902 - Samarasinghe S.D (SDSamarasinghe)', 'Member 3 - IT20623418 - Jayasekara J.M.P.N.K (Parami98)', and 'Member 4 - IT20609894 - Batawala B.A.R.P.R (RandikaBatawala)'. A section titled 'Brief Description of Project -' follows, containing the text: 'With the current situation in Sri Lanka and the busy lives of many people, it is very easy to get the required items in one place as a one-stop-shop and make online transactions. With that in mind, we decided to create this e-commerce solution. Anyone can easily get the cell phones, smart watches and accessories , cameras , head phones, tablets, drones etc. they need at any time from the one-stop shop and make the payment online or cash on delivery.'

Below the sidebar, there is a note about the embedded database and a "Get project badges" button. At the bottom, there is a footer with information about SonarQube technology, version details, and support links.

### 3. Project issues

The screenshot shows the SonarQube Issues page for the SPM project. The top navigation bar includes links for Projects, Issues, Rules, Quality Profiles, Quality Gates, and Administration. A search bar at the top right allows searching for projects, sub-projects, and files. The date and version information are also displayed.

The main content area shows the Issues tab selected. On the left, there are filters for Type (Bug: 10, Vulnerability: 24, Code Smell: 154), Severity (Blocker: 0, Critical: 6, Major: 62), Resolution, and Status. The 'My Issues' button is highlighted.

The list of issues is organized by file:

- Code/gomart-backend/controllers/UserController.js**
  - Remove this useless assignment to local variable "update" (Code Smell, Major, Open, Not assigned, 15min effort) - posted 2 months ago, L99, cert, cwe, unused

The screenshot shows the Selenium IDE interface. At the top, there are navigation icons: a plus sign (+), a search icon (magnifying glass), and a refresh/circular arrow icon. Below the toolbar, the URL bar contains the address <http://localhost:3000/store/store-admin-orders>. The main area is titled "Command" and displays a single step: "1 ✓ open". To the right of the command, there is a "Target" column with the value "http" and a "Value" column with the value "1".

## 2. Automation test script

The screenshot shows the Selenium IDE interface for a project named "GoMart". The "Tests" menu is open, showing two test cases: "Increase and decrease the quantity" and "Proceed the payment". The "Increase and decrease the quantity" test case has 10 steps, while "Proceed the payment" has 24 steps. The "Add product to cart" test case is currently selected and expanded, showing its 10 steps. Below the test cases, there are input fields for "Command", "Target", "Value", and "Description". The "Log" tab at the bottom shows a list of 24 log entries corresponding to the test steps, with the last entry being "Proceed the payment completed successfully".
